

Hey!

It's finally here! welcome to the Raring 20s!

HAPPY 20th Bday lol! <3

Two years ago on this day, at this time, i made the amazing decision to wish you happy birthday and man what an amazing two years it's been! We've spoken endlessly and i know you're scared as hell for your 20th ~~which~~, I just want you to stop thinking about everything bad for a second and look back (change of ink, my pen leaked F). I mean, look at you & see how far you've come, You've grown so much as a person & I love seeing you conquer a new fear everyday and I know you're gonna keep getting better. I know I probably say it too much haha but I love you! So so much and you're constantly living in my mind <sup>open</sup> (sent-free >:c), oh wait, already made a website for this!

we've talked, endlessly, for hours on call  
362158 messages (which is ~~not~~ going up because you haven't replied yet >:c) (jk).

Meeting you is the best thing that's happened to me & I only hope that we stand by each other forever & ever or until 2100 whichever comes first B)

I Love You Dhakei Mudumbi (As a sister <3) (Step-Sister\*)  
You're the Best Person to have ever existed  
I'm always by your side! Remember that!

Much Love,  
Sorry Singh
